

1Staff 365 Back Office for Microsoft 365 Business Central

Your AI-driven cloud solution for staffing excellence.

The platform for growth: empower your staffing business with a robust time, payroll, billing, and full financial ERP solution.

1Staff delivers a high-performance platform for Staffing organizations. 1Staff is the staffing functionality built by Professional Advantage into the Microsoft Dynamics platform. Within this platform, Professional Advantage has developed end-to-end solutions that uniquely meets the needs of complex, growing staffing organizations.

1Staff 365 Back Office is a comprehensive, fully embedded Back Office system for Microsoft Dynamics 365 Business Central. 1Staff will help your workforce capture their time, help finance smooth the pay/bill process and help the executive properly control and grow the business.

Our billing engine provides the flexibility to tailor to your specific customer needs, with configurable formats, frequencies, and substantiations. Everything is designed to enhance your reputation and service.

1Staff 365 Analytics will deliver timely reporting on performance and metrics, critical to winning and retaining business.

There are also comprehensive, fully embedded payroll extensions for Microsoft Dynamics 365 Business Central. These deliver all the capabilities and efficiencies you expect in a payroll system along with payroll tax filing services, ACA compliance capabilities and more. Alternatively, 1Staff will integrate to your preferred payroll.

So while many staffing businesses struggle with many disparate applications, complex integrations and consequential reporting nightmare 1Staff and Dynamics 365 Microsoft Business Central bring together everything that was once siloed.

An innovative full order-to-cash platform in one single sign on, all transactions seamlessly working with a singular financial ledger. A platform that will give your team the tools they need to win new customers, improve profitability, and reduce operating costs.

Boost efficiency with AI, machine learning, workflows and automations, and seamless Office and Team integration. Get a full view of your business with built-in intelligence when and where you need it. Leverage the extensive range of market place apps and API's to seamlessly work with your Front Office and other necessary systems, or services.
