

1Staff Mobile Staffing & Recruitment Software

Engage your talent anytime, from anywhere. Specifically built for Android and IOS.

1Staff Mobile is the intuitive staffing and recruiting app from Professional Advantage.

Made exclusively for your mobile device 1Staff helps candidates easily and quickly search for jobs, view and complete assigned on-boarding and credentialing tasks, maintain availability, preferences and documents. 1Staff Mobile is seamlessly integrated with 1Staff staffing software, with no latency and in real time.

What do you need from your mobile staffing software?

Your talent wants to find work fast on their device from any location. As a staffing agency, you want your applicants to share the minimum details quickly and easily embark on a long-lasting relationship.

1Staff Mobile is here to help!

With it's intuitive app new applicants (users) can easily search for jobs with your staffing firm and create an account when they see something interesting.

Engage your talent any time, from anywhere

Built for Android and iOS

Unauthenticated job search and application

Self registration

Full seamless integration with 1Staff, no latency, real time

1Staff Mobile gives you talent engagement in one place for the full Staffing life-cycle

As a Job Applicant,
Job Seeker, or Employee

- I want to quickly see what's new and what you have to action.
- I want to complete any on-boarding tasks quickly and efficiently from my device from any location.
- I want to keep my details up to date, see what information I have shared, share my resume so the staffing business can place me sooner.
- I want to quickly interact to get information with minimal fuss from my device.
- I want simple intuitive ways to share my feedback.
- I want to see my assignment details

As a Staffing Agency

- I want the job applicant to action and complete as much useful information as possible, I want them to be aware of opportunities, to be engaged.
- I want the job seeker to self apply to fill roles quickly.
- I want the job applicant to self onboard, and I want to track and assess my applicant's suitability for the role ensuring all necessary gates are complete to ensure an effective placement.
- I want the employee details as up to date as possible, to encourage them to maintain and share good detail that helps me place them and keeps them engaged.
